THE FUTURE OF OUTDOOR LIVING

A NEW STANDARD FOR EXTERIOR SHADING

The Polar Vortex isn't just a new product, it's a new benchmark. Engineered to perform as beautifully as it looks, this next-generation zipper shade transforms how you live outside.

Advanced Track Technology

The wind stops here. The Polar Vortex locks shade fabric edge-to-edge, keeping your shade from billowing even in gusty conditions.

Premium Motor Systems

Somfy, Alpha, and Gaposa solar motors for effortless smart control.

OUTDOOR LIVING REDEFINED

Enclose your outdoor living space with our state-of-the-art **Polar Vortex Shade** to protect your family and furnishings from the harsh outdoor elements without compromising your view.

SYSTEM INNOVATIONS

WHAT SETS IT APART

Sleek, modern profile with crisp, clean lines. The Polar Vortex doesn't just shade your space, it elevates it. Universal wall and soffit mounting delivers a perfect flush fit with easy access to inner components.

Innovative two-piece Vortex Zipper Track conceals mounting hardware. No unsightly plugs or exposed fasteners, just a seamless finish from every angle, regardless of mounting application.

Next level low-profile zipper and spring-loaded track system. Precision-engineered for a smoother fabric connection and high-wind durability.

Newly designed fabric-to-hem bar attachment. Eliminates visible fabric welds—so the shade looks as refined when it's down as when it's up.

Simplified installation and service. A new idler end with locking clamp delivers a more secure shade yet releases with a single screw for quick tube removal and easy installation and servicing.

Patriot Hood — Cassette Alternative. A clean, curved open-back valance ideal for wall mount applications and can span up to 25' wide without an intermediate bracket.
