FACE MASKS

Our disposable face masks are designed for long-lasting comfort and protection and easily expand to completely cover the mouth, nose and chin for full coverage.

They are made of **Spunbound Polypropylene** and consist of four layers (2 water resistant and 2 absorbent) to help reduce exposure to airborne fluids. The masks are one size fits all with a pliable nose piece and elastic ear loops.

ISOLATION GOWNS

Our non-sterile, disposable isolation gowns are great for health-care workers, patients and first responders. They are made from clear, durable **Polypropylene Film** (1 mil) and provide the wearer with a fluid resistant protective barrier. One size fits all and features sleeves with thumb holes and an open back with waist tie closure.

BRANDED FACE MASKS

Display your own logo and colors on our washable, reusable branded face masks made from **100% Polyester** (200gsm).

FACE SHIELDS

Our comfortable, disposable face shields are fully transparent and protect the face from the top of the eyebrows to the chin. They are made from clear, flexible **Polyvinyl Chloride** (30 mil). Sized at 10" x 10", they come with a foam forehead cushion and an elastic band.
